In the account trial bouts of the 145-pound class quite a stir \$\times\$ caused by the meeting of George Reineman. Anchor A. C. of Jersey City, and R. Walkens of the Boys' Club. New York.

After lugging at each other for about a minute Walkens got a neck lock on Reinemann and soucezed with might and main. Very soon the Jerseyman began to choke. The referee ordered a break and then it was found that Reinemann was unconnectous. He was taken to the dressing room where Dr. Harris worked hard on him until he revived. He was pronounced out of danger later.

A Mellinger of the St. Bartholomew A. C., the holder of the 155-pound champion around the waist, sammed him on the canwas and forced his shoulders down flat with a sort of half Nelson. Rubber Ball and Bunkers.

TO THE EDITOR OF THE SUN-Sir: If the rubber-filled ball comes into general use I think I am correct in saying that it will be

solely on account of the greater distance to

be obtained with it than with the ordinary gutta ball. There is no other feature claimed for it that I know of.

gutta ball. There is no other feature claimed for it that I know of.

Now, what will this mean? Nothing less than that all bunkers, harards, trape, &c., which heretofore have made us show our merit as a golfer in order to keep out of them, will now be carried as though they were not in existence. For years we have been endeavoring to construct our courses with the idea of bringing out a high standard of play and now when these efforts are just beginning to bear fruit we knock the whole thing in the head by accepting a contrivance that will anable us to play these same courses with perhaps greater success even with indifferent ability.

Again, what will this mean? Simply the fact that we must do our work all over again, litoles must be lengthened, bunkers changed, oid traps filled up and new once made; in fact an entire rearrangement of courses, and all this to bring our standard of play with the new hell up to the point how reached with the old one.

Is not this point important enough to receive consideration before it has gone too far. There is an easy way out of it. Bar this rubber contrivance.

Clearwater Whu Ble Seventh Straight William E. Clearwater last night won his seventh consecutive game in the champion-ship pool tournament at the Mentauk Academy, Brooklyn. The score was 125 for Clearwater to 84 for Keogh. Keogh won the bank shot and left out the five ball, which Clearwater missed by six inches. Keogh studied long and carefully and then played for safety. Clearwarter pocketed the first ball forcing the nine to skate along the upper rail into the corner. He picked off six more and then played safety. Keogh made a beautiful combination and the applause was vehement. Keogh garnered the rest of the bunch so OTTAWA PLAYERS BEATEN BY THE NEW YORK A. C.

Clark and Hornfeck De the Best Work for the Winners-Heward Tries a New Position and Plays at Point-City Sights Too Much for the Canadians.

The hockey players from Ottawa who played against the New York Athletic Club last night at the St. Nicholas Skating Rink did not show their true form and were beaten by 6 goals to 3. Some of the Canadians had been taking in the sights of this city had been taking in the sights of this city and when they got on the ice were not in good condition to play against such a fast team as the New York A. C. and only at intervals during the contest did the visitors show what they could do with the puck.

The local players were rather afraid of the visitors at the beginning of the game, and for some time the play was very open the puck many from one and of the risk to

the puck going from one end of the rink to the other. The Canadians did some fine lifting and several times almost dropped the puck into the net over O'Donnell's head, but no scoring was done for fifteen minutes. Then Howard rushed the puck toward the canadian goal and passed it to Clark who sent it safely into the net. The play by this time had got rather rough, and Gilmour was put off for two minutes for tripping Clark. The only other goal scored in this half was also by Clark, who carried the puck well toward the Care dispersed and the little it from the the Canadian goal and then lifted it from the side of the rink, and it fell into the net.

In the second half the New York players began to rush from the start. Clark carried the puck up and passed it to Hornfeck, who shot a goal and then Clark scored alone making the fourth goal for the local team. For a few minutes the Canadians put up a strong game and showed some brilliant team work. The New Yorkers were easily blocked work. The New Yorkers were easily blocked and Westwick rushed the puck and passed it to Fraser, who shot the first goal for the visitors. Then Stuart, who was in no shape for a hard contest, was put off the ice for tripping Hornieck and without their captain the Canadians did much better work. A hot scrimmage in front of the New York goal resulted in Gilmour sending the puck into the net.

Several times in the championship pool tournament at the Montauk Academy in Brooklyn, games not between leaders have furnished play of as good quality as those between contestants bidding strongly for first honors. This was the case yesterday afternoon, the two winners of these games providing high-grade play. Long defeated McCune in the first game by a score of 125 to 83. Long was in telling form from the start, and there was nothing that he could not make. It was McCune's last game of the tourney and his seventh defeat. After the game he sold his cue-bag, several cues and other paraphernalia at bargain prices and took the first boat back to Boston. He wanted to get home in time to get a Sunday breakfast of brown bread and beans. The score by frames:

Long—12, 11, 9, 12, 4, 5, 6, 13, 4, 9, 15, 6, 9, 6, 4. Total, 125. High run—24.

McCune—2, 4, 6, 2, 11, 9, 1, 11, 6, 0, 9, 6, 8, 8. Total, 83. High run—9.

In the second afternoon game Walsh beat Stofft, 125 to 85. Stofft made a good brace in the twelfth, thirteenth and fourteenth frames and moved up rapidly on Walsh, but his spurt came too late. The game was full of attractive shots. The score by frames:

Walsh—6, 10, 12, 0, 16, 10, 15, 12, 12, 11, 15, 4, 2, 2, 0, 1. Total, 125. High run—29.

Grant Eby has put in a challenge to play the winner of the tournament for the chamresulted in Gilmour sending the puck into the net.

Jennison scored the next goal and another scrimmage followed in front of the Ottawa goal and Hutton made some fine stops of hard shots by Jennison and Hornfeck. Then Westwick dodged through the New Yorkers, rushed the puck to the goal and landed the third goal for the visitors. The last goal of the game was scored by Hornfeck from a scrimmage. Just before the whistle blew Jennison and Stewart had a wrestling match and Referce Post sent both men to the bench. The New Yorkers tried some new plays which will probably be used next Wednesday in the game against the Crescents. Howard in the second half played at point and Fenwick took a position with the forwards. The change proved very successful. The teams lined up as follows:

Grant Eby has put in a challenge to play the winner of the tournament for the championship, and the game will probably be played at the Montauk Academy in May.

The second game on Friday night was between Keogh and Eby, and Keogh won by a score of 125 to 57. Keogh worked in a couple of husky runs to the extent of 44 and 29. Eby also made a good run, the same being 31. A feature of the game was the frequency with which each man cleared the table. There were four frames in which Keogh did not get a ball and five in which Eby drew blanks. The score by frames:

NOTWINES AND PARKER DRAW. MAJOR MANSIR'S LONG RACE. CANADA'S HOCKEY TRAN LOSES

Stepped by Pelice at Midnight.

Hervey Pasker of Brockton, Mass., and George Bothner of this city met last night at the Lenox Lyceum for the seventh time in what was to have been a contest to a finish for the lightweight wrestling championship. After wrestling one hour and twenty-five minutes the match was stopped by the police and the decision was a draw.

and the decision was a draw.

Bothner's defence was the most noteworthy part of the meeting. He allowed Parker to do all the work, occasionally taking a chance to obtain a hold which would end the match. Parker was visibly nettled over lather a leave the parker to the match. Bothner's clever tactics a few minutes be-fore midnight. Referee Charles White ordered the men to their corners on the instiga-tion of the police. He called the bout a draw. About 2,500 speciators were present. It was nearly half-past 10 o'clock before Bothner and Parker appeared in the ring. Bothner was attacked with nose bleed before

Bothner and Parker appeared in the ring. Bothner was attacked with nose bleed before the bout and seemed to be weak. The strangle hold was barred, pin falls only counting. Parker took the initiative. He kept on top of his lighter rival for six minutes. The blood still trickled from Bothner's nose, which bothered him considerably. Bothner broke a half Nelson and a back hammer lock and then became the aggressor. But it was only for a few seconds, for Parker caught his opponent's left leg and tossed him around. Parker secured what looked to be a dangerous lock at the fifty-fifth minute. He applied a full Nelson and had Bothner on one shoulder, but Bothner quakely wook the noid and spun around out of danger. From this time on till the close the issue was always in doubt, and when the affair terminated both men were little the worse for their efforts. The initial preliminary bout was interesting. Carl Schmidt of Elizabeth met Young Miller of the Christic A. C., at catch-as-catch-can style. The contest was limited to fifteen minutes, but was over in a little over half that time, Miller being the winner. Percy McIntyre, a former amateur pugilist, and Jake Webber, instructor of the Twenty-second Regiment, figured in the next essay under catch-as-catch-can rules.

Webber took the arst fan with a crotch hold in 5 minutes and 20 seconds and the next, and the match with a full Nelson in 6 minutes and 58 seconds. The third pair were Leo Pardello and George Fischer, a pupil of Bothner, the style being catch-as-catch-can. Fischer was unable to continue after the expiration of fifteen minutes and Pardello was declared the victor. Jack Fox of this city defeated Jimmy Stone of Hartford.

AUTOMOBILE RACES ABROAD. M. de Martigner Talks of the International Contests.

An interesting chat was had recently with M. Fraest Cuenod de Martigner, the Vice-President of the Automobile Club of Switzer-land and one of the founders of the French Automobile Club. M. de Martigner is now stopping at the Waldorf-Astoria. He says his mission here is chiefly to interest Ameri-cans in the European races to be held this year, the most important of which will be the year, the most important of which will be the Paris to Vienna contest of about 1,000 miles, which will be run in four or five relays. In this race there are expected to be 150 starters. He said:

"There is nothing that more thoroughly tests motor cars than a race. A machine must be almost perfectly constructed to stand the high speed and long running that is necessary in these inter-city contests. It would be of great benefit to the sport to have the Americans participate in the European races. France has taken the lead in racing and still holds it.

France has taken the lead in racing and still holds it.

There are about half a dozen big races now scheduled in Europe. The first one will be held early next month under the auspices of the Italian Automobile Club. This is a 1,000-kilometre run from Nice to Abezzia, or about \$25 miles. Later in April there will be the annual Paris-Bordeaux race of about \$75 miles, which was won last year by Fournier, who travelled at the average rate of 33 miles an hour. The race for the International cip probably will be held in conjunction with the Paris-Bordeaux event. In the cuprace every competing machine must be intoto, tires and all, made in the country that its owner represents. The foreign makers have dropped the extra heavy and high-powered machines and are now putting out medium weights. This is due to the action of the Automobile Club of France making a rule that no machine weighing more than 2,200 pounds could compete in any of the races under its auspices and a wise rule it is. It has checked the tendency toward making machines of enormous power that were a meaning to the proposed to the later of the proposed to the part of the proposed to the part of the proposed to the part of the part o It has checked the tendency toward making machines of enormous power that were a menace to public safety and to the best interests of the sport."

M. de Marilgner's visit here is evidently not to be in vain. Already Messrs, D. Wolfe Bishop, Foxhall Krene, W. K. Vanderbilt, Jr., and A. C. Bostwick have entered for one or more of the foreign races and if Alexander Winton, Henry Ford and a few more follow suit, America will be stanchly represented.

First Four-Mile Race Held at New Orleans Since the War-Large Crowd Sees Baces on the Closing Day of Meet -Lindsey Falls From Ida Ledford.

New Orleans, March 22.—To-day marked the end of the winter and spring races in this city. The weather was cool and threatening, but a very large crowd was out. The feature of the afternoon was the four-mile race. It was the first event at this distance that has been decided here since the war. The favorite for the race was Major Mansir, mainly on account of Jockey Winnie O'Connor having the ieg up. He was played down from 7 to 5 and at post time the best price obtainable was 4 to 5. O'Connor waited on the field until the stretch was reached the last time around and then let his mount down, winning in a gallop from Little Tommy Tucker. Little Elkin was third six lengths away. O'Connor. by clever handling, also managed to land NEW OBLEANS, March 22.-To-day marked Eikin was third six lengths away. O'Connor, by clever handling, also managed to land Love's Labour a winner in the opening event.

Trainer Karrick will ship his stable to-night by fast express to Washington. The other members of the Eastern contingent leave to-morrow morning.

Jockey Lindsey just as the field left the post in the fifth race fall from Ida Ledford.

post in the fifth race, fell from Ida Ledford, the favorite. The affair caused a big sensa-tion, but no action was taken by the stewards
